

## Better Care Fund

£3.8bn national fund from April 2015 to encourage integration between health and social in order to :-

- Improve co-ordinated care for patients
- Reduce reliance on institutionalise care
- Focus on prevention and support in the community
- Protect social care services
- Encourage 7 day working

<http://www.england.nhs.uk/ourwork/part-rel/transformation-fund/bcf-plan/>

3% of CCG overall budget - £24m for our three CCGs

## Better Care Fund

### National voices- Integrated Care, what do patients, service users and carers want?

- People want co-ordination not necessarily integration
- People want care- where it comes from is secondary
- People want to be listened to, get good explanations, have questions answered, share decision making and treated with empathy and compassion
- Co-ordinated care delivers fast access, effective treatment, respect for preferences, support for self-care, involvement family and carers
- People want to know entitlements and costs they might incur
- Divisions into primary/community/social care meaningless
- People want to trust a single point of liaison

## Better Care Fund

- Each CCG/UA developing a vision for integrated services
- Engaging Health and Well-Being Boards and local stakeholders
- Developing plans for extended community services
  - Self Care and Prevention
  - Intermediate Care and reablement
  - Integrated Care Teams
  - Discharge from hospital
- ‘First cut’ plans approved by HWB by 14<sup>th</sup> February 2014

## Better Care Fund Survey

Over the last five years, we have been working together to transform the local health and care system.

We believe we have made a difference but there is still more to do. We would like to hear from local people about the care they receive, where it works well and what could be better.

We would like you to tell us about how our services work, and what we can do to make them better.

Please indicate how true these statements are for you by scoring them on a scale of 1 to 6 (where 1 is poor and six is excellent).

# Better Care Fund Survey

	1	2	3	4	5	6
I have access to a range of support that helps me live the life I want and remain a contributing member of my community						
I have a life-long relationship with my health and social care professional who can help with the vast majority of my needs.						
I have 24hour helpline for all services and access to a wide range of services in a few local locations.						
I have a health plan that I own, have access to and I have agreed who it can be shared with.						
I have systems in place so that I can get help at an early stage to avoid crisis						
I have support for any carer(s) involved in my care						
Health and social care professionals help me understand a wide range of services and I am supported when I want to change some of my behaviours.						
I have consistent access to services locally and I have access to technology that support my health and wellbeing.
