

Berkshire Interoperability

Share Your Care

Version: 1.0

Date: 19th November 2015

What is Share Your Care

Person held health and social care record for the citizens of Berkshire

Having this across commissioners and health and social care providers, so that the individual holds and manages their care and gives consent to providers of care to view their record based on an agreed data set. Providers thereby work together to provide high quality care.

Interoperability and Information exchange between organisations

Enabling the flow of data to be sent between two or more organisations for the benefit of co-ordinating service provision across care pathways improving patient care

Why are we doing this

- Better care experience
- Citizen access to records
- Better engagement with the care process

Citizen

- Comply with national directives
- Increased productivity
- Enablement of service redesign
- Population based analysis

Operational

Qualitative

Quantitative

- More time with the patient
- Better decision making
- Reduced administration
- Job satisfaction

Staff

- Time efficiency savings
- Reduction in waste
- Cash releasing

Financial

Who will have access

Accessed only by those who are involved in your care

Access only to areas of the record appropriate to their role

Individual has final say on who can view their record

Phased Approach

Phase 1
