What is an integrated care system?

ICSs do different things at three different levels

Level	Pop. Size	Purpose
Neighbourhood	~50k	<ul style="list-style-type: none">Strengthen primary careNetwork practices and other out of hospital servicesProactive & integrated models for defined population
Place	~250-500k	<ul style="list-style-type: none">Typically borough/council levelIntegrate hospital, council & primary care teams/servicesDevelop new provider models for 'anticipatory' care
System	1+m	<ul style="list-style-type: none">System strategy & planningDevelop accountability arrangements across systemImplement strategic change and transformation at scaleManage performance and £
Region	5-10m	<ul style="list-style-type: none">Agree system 'mandate'Hold systems to accountSystem developmentIntervention and improvement

Each level performs specific functions under the following common headings

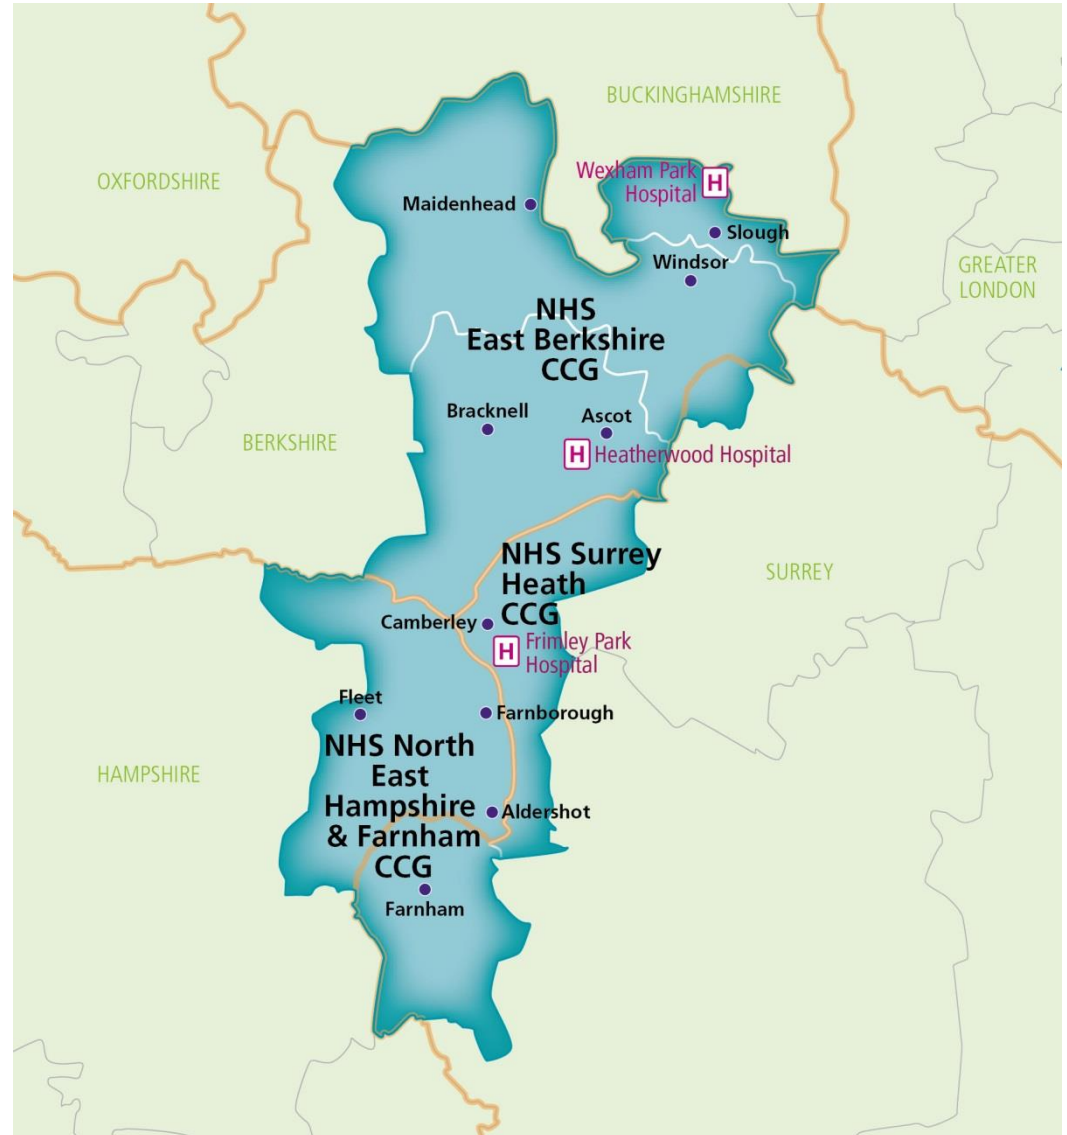

- Leadership and workforce
- Strategy and planning
- Population health management & care redesign
- Performance and improvement
- Managing collective resources
