

# Clinical Chief Officer Report

12<sup>th</sup> March 2019

# East Berkshire CCG Strategic Priorities

- **Person:** working alongside individuals to empower them to take control of their own health and wellbeing
- **Place:** working in local communities, local authority areas or across a bigger geography to respond to the needs of our population
- **Engage:** engaging with staff, member practices, local people and other stakeholders so that services are informed by their needs, views and behaviours
- **Integrate:** breaking down the barriers of traditional organisational boundaries to deliver effective and responsive services

# Patient Story

# WAM locality

- Primary Care Networks
  - Sign off by May 2019
- CCG Staff Survey
  - First year of participating in the national survey
- Bracknell Forest HWB
  - Presentation of strategic priorities

## National Proposals for legislative change

- Promoting collaboration (competition rule changes)
- Getting better value for the NHS (procurement rule changes)
- Increasing the flexibility of national NHS payment systems
- Integrating care provision (creation of integrated care trusts)
- Managing the NHS's resources better (FT changes)
- Every part of the system working together (local system governance changes)
- Shared responsibility for the NHS (creation of a new shared 'triple aim' duty)
- Planning our services together (collaborative commissioning arrangements)
- Joined-up national leadership (NHSE/I merger)

# Frimley Health & Care Integrated Care System

- Key focus on 19/20 plan
- More financial strain than previous years
- 3 CCGs working well together to agree joint signing of the plan
- Independent chair appointment in the pipeline
